

## MAIN ISSUES OF THE PROJECT

Gather the prerequisite to lead the project (funds, tons of permission to work with kids, ...)

Educate young people from primary and secondary schools about Global Goals

Inspire them from citizenship justice to climate change and the environment to make the difference in the future

Covid-19 : all activities expected to be in person (here the majority of the activities imagined for the project) must be held online.

## GENERAL GOALS OF THE PROJECT

**Economic :**

*Directly:* there is no direct profit in this particular project

*Indirectly:* Educate future leaders that will be decision makers tomorrow who will be able to include CSR approach and Sustainability in their work

**Social:** Educate them on the social pillar of the sustainable development

**Environmental :** Educate young people (primary and secondary) about the importance of the environment and climate protection, beyond the noble action to clean trash in the grass!

## INTERVENTION AXES

(see tool 1)

Develop educational materials on the SDGs

Educate teachers about the SDGs and the materials

Implement the "World Largest Lesson" in Croatia

Evaluate students, teachers and parents

Disseminate the project activities nationally and globally

## EXAMPLE OF ACTIONS & RESOURCES REQUIRED

- (1) Search funding for the project
- (2) Obtain the Ministry of Education's permission to work with kids
- (3) Translate educational materials of the "World's Largest Lesson" free for use and adapt them online by IDOP and a NGO specialized in quizzes.
- (4) Organize an online webinar to educate the teachers with a coordinator of the project at IDOP
- (5) Lead online the lessons (debates, brainstormings, work in pair, eco-quizzes, cards games ...) with 1 primary & 1 secondary schools in Croatia with teachers, students and parents (because everyone is involved in the project)
- (6) Reinforce them with online activities with the biggest croatian companies where kids can hear about CSR, with practical staff to learn from the practice, ... (currently at these stages)
- (7) Assess the project participants and collect their feedbacks through online surveys
- (8) Use their feedbacks to produce a unique book about sustainable development adapted to the Croatian educational system
- (9) Promote this World's Largest Lesson lead in Croatia on social media of the project and beyond (like here in the ODD&THEKEDGERS' project!)
- (10) Include this project in the global project of the World's Largest Lesson

## RESULTS OBTAINED

The World's Largest Lesson in Croatia will finish in 5 or 6 months, results are not available yet.

## SDGs CONCERNED BY THE PROJECT

(see tools 2 & 3)
